FAQ'S

What is this type of insurance?

Private health insurance, which is designed to cover the costs of private healthcare, from diagnosis to treatment.

What is an excess, and what options are available?

You can choose to pay a policy excess, where you pay up to the first £100, £250, £500, £1,000 (or £2000 on BupaCare) of your eligible treatment costs in any policy year. Choosing a higher excess will decrease your monthly premium, and your excess will only be due at the point a claim is authorised.

How long does it take to set up my policy?

We can get everything ready to set up your policy quickly, and in most cases, much more efficiently if we are able to speak with you over the phone. During the set up call, we confirm all the relevant details and complete your underwriting application, this usually takes around 20-30 minutes, depending on your medical history this process can be longer or shorter.

TERMS & CONDITIONS

¹ Only when they follow on from, & are related to, private day-patient treatment/in-patient treatment & they take place within 6 months of the discharge date of that treatment.

² For children aged 17 or under, one parent per night.
