### \* LOCALISED DOCUMENTS - NSA5 \*

Please remember to send us localised study documents relating to the non – substantial amendment 5 **STAR PIS v2.0 (07/08/2024)** and **STAR GP Letter v2.0 (05/07/2024)**. **Ensure that your R&D Department has issued local approval to use the updated documents.**

You can email our friendly team at [starstudy@imperial.ac.uk](mailto:starstudy@imperial.ac.uk) for all things STAR related. We are happy to help.

### \* STAR \* DATABASE UPDATES

We are in the final stages of performing database validation and configuration checks. This is to ensure its best performance possible. Thank you for your patience while we are continue working on the database implementation. The exact date of REDCap going live will be confirmed shortly.

In the meantime, please send us completed REDCap Training Log in order to receive access to the database - data entry or PI user access rights , if you haven't already done so.

DID YOU KNOW ....

To ensure the study data is accurate, please respond to REDCap queries properly. You should receive a notification alert via email each time a query has been assigned to you on the system. To access a list of all queries that have been assigned to you, navigate to the „Resolve Issues“ tab in the REDCap.

This will open the data resolution dashboard with a list of open queries for you to resolve.

### REDCap Data Entry Guide

Data entry manual will be provided before the REDCap implementation. You will be able find the step-by-step guide to data entry with examples of data instruments for each study visit.
