

Tissue User Progress Report

Dear Researcher,

We would be most grateful if you would provide a short report summarising the work that you have performed on samples of tissue supplied by the Tissue Bank. This is one of the conditions that you agreed to in accepting the human tissue (please refer to Terms and Conditions in the tissue request form). Also, inform us if the work has been published and if so, please supply electronic copies (PDF files) of full papers and meeting abstracts. The report will be published on our website www.imperial.ac.uk/brain-bank.

If you require any further information regarding the submission of your report please contact Dr Djordje Gveric on 020 7594 7204 or e-mail d.gveric@imperial.ac.uk.

The completed form should be saved under your name and together with electronic copies of publications e-mailed back to us (d.gveric@imperial.ac.uk).

Many thanks,
Tissue Bank Team

Project details

Name: E-mail: Date:

Address:

Project title:

List of publications and meeting abstracts:

The project is Do you have any data that you can share with the Tissue Bank?

Are there any samples remaining? Do you want to return the remaining samples?

Are you planning to submit a new request? Will you require further tissue samples

Please note if you have samples remaining in your possession and are planning to use them in another project you will have to submit a new tissue request. A request pack can be downloaded from our website www.imperial.ac.uk/brain-bank.

Project summary (please include Aims, Results and Conclusions / Implications sections in your report)
