### IMPORTANT UPDATE

**FINAL RECRUITMENT END DATE \*\*\* 30 JUNE 2025**

#### NEW PATIENTS FOLLOW UP TIMELINES , FOLLOWING RECRUITMENT EXTENSION:

- **FOR PATIENTS RECRUITED BEFORE SEPTEMBER 2024 – 12 MONTHS FOLLOW UP**
- **FOR PATIENTS RECRUITED BETWEEN SEPTEMBER 2024 – FEBRUARY 2025 6 MONTHS ACTIVE FOLLOW UP / 12 MONTHS FOLLOW UP FROM PATIENT NHS RECORDS ( TBC)**
- **FOR PATIENTS RECRUITED BETWEEN MARCH – JUNE 2025 – 3 MONTHS ACTIVE FOLLOW UP**

Implementing this new approach and conducting a minimum follow-up at 3 months post-operation, will allow us to collect data for thorough statistical analysis and offer the STAR pathway to more eligible patients. There are no recorded serious adverse events (SAEs) or complications observed between 6 and 12 months postoperatively. We are in the process of submitting a substantial amendment to update the study documentation.
